SUMMARY

Data analyst with 3 years of experience building dashboards and reporting pipelines for retail merchandising teams using SQL, Power BI, and Python.

PROFESSIONAL EXPERIENCE

Data Analyst - Harborview Retail Group (Jun 2022 - Present)

- Built and maintained recurring Power BI dashboards for merchandising and marketing stakeholders.
- Wrote SQL queries against the retail data warehouse, including joins and window functions, to answer ad hoc business questions.
- Cleaned and validated incoming sales and inventory datasets before they reached reporting layers.
- Presented findings and recommendations to non-technical stakeholders in weekly review meetings.
- Used Python scripts to automate recurring data cleaning steps.

Reporting Analyst - Cedar Grove Supply Co. (Jul 2021 - May 2022)

- Built Excel pivot table reports for regional sales managers.
- Queried operational data with SQL to track inventory turnover.

TECHNICAL SKILLS

SQL, Excel, Power BI, Python, Data Cleaning

EDUCATION

Bachelor of Science in Data Analytics, State University, completed.
